details overview

3 days

🕒 9:00 am - 6:00 pm daily

🗨 Language: German

💰 Regular price:
1320.00€ plus VAT.

🕒 Early bird discount (until 8 weeks):
1122.00€ plus VAT.

Advice: This course is also available as a 4-day training

In this foundation level seminar, you learn the most important software testing terms and principles. Step by Step, we go through all the stages of the software testing process, from the planning to the specification to the testing and to the documentation of tests. We address professional test methods and show how they are connected methodically.

This course teaches the curriculum contents of the ISTQB® within three days. We also offer you a 4-day course with plenty of time for hands-on scenarios and discussions. If you are interested in a more in depth exchange of experiences with your trainer and your fellow course participants, then you may decide to book the 4-day training course.

All our trainers have many years of experience in the field of software testing, and a have track record as consultants in small and big projects.

You can also get a good overview of the course in our 5-minute video in German language: https://youtu.be/1DWyDY_7oK0
