

ISTQB® Certified Tester Foundation Level - Agile Tester

Oct. 27, 2022 - Oct. 28, 2022

details overview

2 days

🕒 9:00 am - 6:00 pm daily

💬 Language: English

🎫 Regular price:
828.75€ plus VAT.

🎫 Early bird discount (until 8 weeks):
828.75€ plus VAT.

Advice: This course is an extension to the ISTQB® CTFL foundation course. Knowledge of CTFL is an advantage.

In this ISTQB® seminar, you will get a basic understanding of the agile (working) world. We will present roles, processes and techniques in agile projects and explain how you ideally work together in an agile environment. We help you understand agile principles and practices and tell you how to adapt your test knowledge in agile projects. After the course, you will be able to support your agile team in the planning of testing activities, to apply techniques and methods and to formulate clear user stories and acceptance criterias.

This training is an add-on to the basic course Certified Tester Foundation Level CTFL. The CTFL certificate is a precondition for the „ISTQB® Certified Tester Foundation Level Extension: Agile Tester“ certification exam.

All our trainers have many years of experience in the field of software testing, and have track records as Agile Coach and Scrum Master in small and big projects.

exam

optional

🕒 On-site course: 4:00 p.m. on the last day of the course / Online course: exam day and time freely selectable

🕒 60 minutes

🎫 Test type:
multiple choice

🎫 Examination Fee:
215.00€ plus VAT.

Advice: The „ISTQB Certified Tester Foundation Level“ certificate is a precondition for the examination
